EXPERIENCE

Swaas IT Solutions

Senior Cloud/DevOps Engineer

Chennai

Nov 2024 – Present

- Built reusable Terraform and Ansible modules for AWS services including EKS, ALB, IAM, and S3, streamlining infrastructure provisioning.
- Built a custom internal Kubernetes tool for multi-cluster management and governance.
- Responsible for designing, implementing, managing multiple Kubernetes clusters across environments.

Contus Tech

DevOps Engineer

Chennai

Dec 2022 – Nov 2024

- Pioneered the transformation of 3-tier project deployments, architecting the implementation using Ansible and Terraform, resulting in a remarkable 90% reduction in deployment time.
- Enhanced project security and optimized CI/CD workflows through the implementation of GitLab CI, SonarQube, and Gradle.
- Streamlined Docker deployment through Bash scripting, significantly slashing build time and enhancing automation.

Cloud Administrator

Nov 2021 – Dec 2022

- Utilized Jenkins for seamless deployment on Google Kubernetes Engine (GKE) and crafted custom Helm charts, enhancing automation and scalability in the deployment pipeline.
- Deployed, and maintained a HA Graylog cluster handling over thousand of logs per second, resulting in streamlined log processing.
- Administered and managed the On-Prem server hosting a production-grade chat application, ensuring high availability, and optimal performance in a critical environment.

Precision Infomatics

Associate System Engineer

Chennai

Sep 2019 – Nov 2021

- Monitor virtual and physical network health, security, and capacity, make decisions and adjustments requests to ensure optimal system performance.
- Analyzed the server logs and provided fix/root cause for incidents.
- Minimized the manual workloads using Shell/Bash scripts.
- Installed and configured web servers (FTP, NFS, SAMBA)/(Apache, Nginx).

SKILLS

Cloud Environment: AWS, Google Cloud, Azure.

Databases: MySQL, MongoDB, Cassandra, Redis, Elasticsearch.

AWS Services: EC2, RDS, S3, Cloudfront, VPC, IAM, ACM, ELB, SES, SNS, EFS, CloudWatch, Route 53.

DevOps tools: Terraform, Ansible, Vagrant.

CICD: Jenkins, GitLab CICD.

Containerization: Docker, Azure Container Apps, Kubernetes(EKS,GKE,AKS).

Monitoring: Prometheus, Grafana, Loki, Graylog.

Scripting: Bash, Python.

PERSONAL PROJECTS

[Distributed System Project](#) | Python, Ansible, Vagrant, Minikube

[Personal Website](#) | NextJS

EDUCATION

Mar Gregorios College, Madras University

B.sc Electronics and Communication

Chennai, IN

2015 – 2018

Good Hope Mat Hr Sec School

Senior Secondary

Chennai, IN

2014 – 2015
